

# Dashboard guide: Weekly implementation

## How to use this guide

- Review data each Friday
- Sort feedback by concept areas
- Plan adjustments for next week
- Share insights with teaching team

## Why weekly review matters

- Catch learning trends early
- Adjust before misconceptions solidify
- Target support effectively
- Build on successful strategies

## Dashboard focus

- Track Understanding patterns across lessons
- Monitor Zone consistency
- Review Group Lessons for recurring themes
- Check Mindset trends

## Weekly actions

### Understanding trends

Patterns showing which concepts need attention vs. mastery.

- Identify concepts needing re-teaching
- Group students for targeted support
- Adjust upcoming lesson difficulty

### Zone analysis

Challenge level patterns to adjust lesson difficulty and support.

- Modify next week's activities
- Plan differentiated assignments
- Schedule support interventions

### Group insights

AI-detected patterns suggesting specific teaching adjustments.

- Address persistent misconceptions
- Adapt teaching strategies
- Plan collaborative activities
